

Our Services:

Drone Photography Surveys -
Safe, Accurate & Cost Effective Inspections

What is a Drone Survey?

A drone survey uses high-resolution aerial photography and video to inspect hard-to-reach areas of a property without the need for scaffolding, ladders, or access platforms.

Prices Start From £199.00 + VAT

(Final fee's depends on property type e.g. residential, commercial or bespoke, property size, location, and scope of inspection.)

Optional add-on service for Level 2 & Level 3 surveys, or available as a standalone inspection.

Please note: Drone flights are subject to weather conditions and Civil Aviation Authority (CAA) airspace regulations.

What We Offer?

- ✓ Roof inspections (tiles, chimneys, flashing, gutters)
- ✓ Building condition surveys
- ✓ Chimney & high-level masonry inspections
- ✓ Gutter and rainwater system checks
- ✓ Aerial photography & video for property marketing
- ✓ Thermal imaging (optional extra)

Why Choose a Drone Survey?

- ✓ Safe – no need to work at height
- ✓ Efficient – large or complex areas covered quickly
- ✓ Cost-effective – cheaper than scaffolding or cherry-pickers
- ✓ Detailed – high-resolution images and video evidence included
- ✓ Independent – impartial reporting by an RICS Chartered Surveyor
